**\$100 off the asking price for every bull sold on April 6, 2021.**

If you are interested in a particular bull at the asking price you should let us know before 10:30 a.m. on April 6, 2021. If more than one customer is interested in the same bull at the asking price, we will have a private auction between those that have let us know. We will call you if there is another buyer interested in the same bull and have the auction over the phone. If you do not notify us the bull will be sold to the first buyer accepting our price. If the bull sells on April 6 with no auction he sells for \$100 below the asking price. If there is an auction he sells at the auction price. If he sells after April 6, he sells at the asking price.

**Management and condition**

These bulls have spent their whole life on grass. They were fed a corn based ration at 2% of bodyweight for 101 days from June to October, then ultrasounded. They were roughed through winter on dormant pasture with 8 pounds of 14% cottonseed cake per day and occasional prairie hay. Because they have never been pushed for performance they should not "fall apart" working your cows.

**Breeding Guarantee**

Every bull has passed a Semen Evaluation performed by Reproduction Enterprises, Inc., and is guaranteed fertile for the first 90 day breeding season.

If he fails to settle your females we will provide either 1) a suitable replacement if one is available or 2) a credit on a future Tower Hills animal equal to your purchase price less salvage value.

This is not life insurance. We will not replace an animal due to death or injury. Contact us immediately if you discover a failure to breed during the first breeding season.

We offer free delivery on bulls up to 200 miles.
