Big Shot is a very deep ribbed Angus power bull. We used him as a yearling to breed our best registered Angus cows. He was a standout at weaning, going on test and coming off. He had by far the biggest Ribeye on scan day. His royal pedigree, performance, and carcass merit qualifies him to be a herdsire in any Registered operation. He has the highest \$C among the Angus bulls, and his calves will really grow.

This bull is half Angus feed test Champion and half Salers maternal wonder. His Dam was 13 years old when she weaned him weighing 640 last April. He is tied for the biggest bull in the offering at 1230 recent weight, and gained 190 pounds on dormant grass with a little hay and cake over a very tough winter. Use him on cows to make cows and boost hybrid vigor for high performing calves. He does get nervous when sorted from the herd.
