Fibrepros

Specification

The feature rich lighting controller has been designed to provide a control solution for the most demanding of projects, while maintaining an easy to use panel of touch sensitive buttons.

The controller integrates a graphic color screen allowing scene photos to be displayed. Easily view the selected zone, scene name and design without the need to navigate through complex menus.

Change the speed, color and dimmer using the circular palette. The lighting levels, color and effects can be programmed from a PC, Mac, Android, iPad or iPhone using the included software.
