

Specification

A miniature lens made from polycarbonate.

Ideal for high-ceiling starfield ceilings, walls/facades, signage and decorative application.

With a domed 'mushroom' lens it offers a uniform distribution of light. The hole transmits all the way through the fitting, making it ideal for star effects.

The FP-CE10 is ideally used for Raw Fibre: PAF20, PAF30, PAF40 and PAF60. See our Raw Fibre specification to know more.

Technical Information

Material	Polycarbonate
Weight	0.1g
Size	15mm
Mounting Hole Size	3.5mm
Min. Fibre Size	0.75mm
Max. Fibre Size	1.5mm
