

Specification

Our polycarbonate fitting range offers a simplistic way to focus and intensify end points of fibre.

Ideal for internal signage, ceiling effects and complimenting star field ceilings.

The FP-CE5 is equipped with a conical top in order to focus the light into a specific point.

Although preferably an indoor fixture it can be coupled with EndGlow fibre for outdoor applications.

The FP-CE5 is ideally used for Raw Fibre: PAF30, PAF40, PAF60, PAF80 and PAF120. See our Raw Fibre specification to know more. It can also be used for Endglow fibre, use FP4.0, FP8.0 and FP12.0EG, see our End Glow Fibre specification.

Technical Information

Material	Polycarbonate
Weight	0.1g
Size	21mm
Mounting Hole Size	7mm
Min. Fibre Size	0.75mm
Max. Fibre Size	3.2mm
