

Specification

A miniature lens made with a countersink finish.

Ideal for high-ceiling starfields, walls/facades, signage, decking and decorative application.

This specific fixture's main purpose is to hold the fibre in place and produce a flush finish thanks to the countersink top. It can also be incorporated into decking and landscaping functions.

The FP-CE8 is ideally used for Raw Fibre: PAF20, PAF30, PAF40 and PAF60. See our Raw Fibre specification to know more.
