

Specification

A small sized submersible polycarbonate fitting perfect for water features, swimming pools and fountains.

This small fixture has been designed to fit inbetween the grouting of tiles to create a flush effect in swimming pools and water features alike.

It is specially designed to combat swimming pool chemicals to ensure longer lasting fibre and avoid discolouration over time.

The FP-SM2 is ideally used for Endglow fibre: EG4.0, EG8.0 and EG12.0
