

### Specification

A small sized submersible stainless steel fitting perfect for water features, swimming pools and fountains.

Despite being submersible, this fixture offers an array of different purposes dependent on the situation. It is great pavers for landscaping such as decking. It comes with an optional dome or flat lens, to suit it's preferred purpose.

It also includes an adjustable gland to allow for extra security when fitting the fibre within the fixture. This can be removed for paver application to lower the depth.

The FP-SM4 is ideally used for Endglow fibre: EG0.75, EG1.0, and EG1.5.
