

Testimonials

I am getting ready to retire and The Solo Company placed me here 29 years ago. The job and company was so fantastic that I have stayed here. They have also stayed in contact with all these years giving me advice on how to compete in Corporate America

-J. Lane

Major Pharmaceutical

For years our organization was losing out on good employees because the City paid \$.75 to \$1.25 per hour for the same jobs, which made it difficult to attract employees. The Solo Company sponsored a Closed Door Hiring Conference and we filled 50 openings in one day's time. We had been that many short for over 30 years.

Engineering Director

Major Texas County

I had excellent skills, But lacked the interview skills and resume writing skills. The Solo Company put together a package of my credentials and invested 3 weeks of mock interviews with me. After finishing my sessions with them I receive two interview and two job offers. -

D. Hatch

Accountant - Insurance Company

I was laid off due to a down-turn in the economy and it was difficult competing for Human Resources jobs because so many were laid off. The Solo Company went out of their way, found a company moving here from out of State and spoke directly to

I was placed as a Receptionist 10 years ago and now I am the Administrative Manager for a major Oil & Gas Firm thanks to The Solo Company

-V. Draper

Major Hospital Chain

We depended heavily on The Solo Company to meet our Diversity Goals during the early years. OFCCP and DOD audited us seemingly every other month. In about an 18 month period we were looking extremely good with the hiring of Females and Minorities

-R. Patterson

Director of Human Resources

Major Aerospace Contractor

I was grossly underpaid by my past employer. The Solo Company found me an excellent opportunity and I receive a 25% increase in salary, with a bonus and a vehicle.

B. Aaron

Sales and Marketing Firm

I graduated from college and thought I would have many job offers. That did not turn out to be true. I interview with numerous companies through job fair on campus and many referral through our placement office without any success.

I came here from another country and found it difficult to find employment based on my degrees was from foreign countries. The Solo Company found an Employer that took a chance with me and I have been here for 5 years now.

- C. Sabol

Engineering and Construction

We participated in a Closed Door Hiring Conference sponsored by The Solo Company. We were skeptical to do so because we had to pay an upfront fee before we hired anyone. We have plants located in five different remote locations where it is difficult to attract good talent. At the conference The Solo Company had 18 individuals for us to interview. We made offers to 16 of the candidates and 12 accepted. It was well worth the Money and Time.

-Human Resources Manager

Major Chemical Company -NJ

Our five (5) Hospitals were about to be closed down based on extremely review from JACHO stating we did not have enough employees in Radiology and Nursing in order to provide adequate and safe service to patients. The Solo Company came in and in 90 days filled every vacant position we had in Radiology and in Nursing which totals 102. We received commendations from the Board and JACHO for the accomplishments, due to the excellent Recruiting of The Solo Company

-T. Johnson

Vice President of Human Resources

We have always been short of staff, because our plant is extremely hot and we compete with a major employer in the area that everyone wants to work for because of their wages, benefits and off on Fridays. The Solo put together a Recruiting plan and stayed with us for about 6 weeks so that we could meet our demands. We had enough

the Vice President of Human Resources and spoke of my character and stability in the community. I had a phone interview and they flew me to corporate offices and I was hired. The position never hit the paper.

-C. Villone
Gas Transmission Company

We have 10 locations throughout the country. For some unknown reason one of our plants became unionized. We sought out The Solo Company to come in and teach classes on Union Avoidance and effective management Techniques as well as how to Motivate the Unmotivated. The other nine plants have remained union free and our employees are happy to be employed here.

-HR Manager
Food Distribution -US

When I interviewed with The Solo Company they explained to me what they could do and approximately how long it would take. Six weeks later they found me an excellent position. I later found out that one of the Placement Specialist had physically gone to the company on my behalf

-B. Alade
Major Law Firm

I moved to Houston and could not find gainful employment because of lack of experience. The Solo Company found me several long term contracts that reached a span over a period of two years. When I finally got some experience The Solo company placed me with a firm that had affiliates overseas. After being with them several years they sent me over-seas to solve some Information Technology problems. I have not become their go-to-guy and I love what I am doing.

-J. Patel
Chemicals/Oil & Gas

applicant that we could put on a temporary status until something would come open

-P. Johnson
Plant Manager

The company I work for had never hired a Minority in a VP's role. I had the experience but the role kept evading me for one reason or another.

I spoke to the Solo Company and they conducted nationwide searches. It took six months and several interviews, but I finally landed the position of Senior Vice President of Human Resources. I am eternally grateful for their guidance and leadership in my career development.
