This Summer

This summer you will receive materials in our newsletter on, "Learning How to Pray". There is no more important thing a Christian can learn, because prayer gets God into your situation. John R. Rice said, "Prayer can do what God can do". We could add, "What we cannot do." Those receiving the newsletter by email will get the full two-page study each week. those receiving it through the U.S. Mail will get a condensed version. If you know of anyone who you think who would like these studies, simply give us their email or mailing address
