Print on white paper, not cardstock.
Cut on cut line cutting apart bow & ghost face.
Cut out bow pattern, trace on cute printed paper of choice. (I used scrapbooking paper.)
Or just make a ribbon or tulle bow instead.
Cut out and lay aside.
Fold remaining paper with ghost face not quite in half leaving about 1/4" more paper to the front. (Face is not centered on purpose.)
On the right side, fold over about 1/2" so there is no raw paper seam.
Place over hand cream, tent style, making sure face is centered. Bring left side of the paper around to the back. Do the same with the right side. Scotch tape or glue seam. Glue on bow. Glue on tutu using tulle or lace.
