

# PARTAY GARAGE

## Instructions for Safe Use

**Must be Posted where PARTAY GARAGE is used.**

**UNSAFE USE OF THE PRODUCT CAN CAUSE PROPERTY DAMAGE, PERSONAL INJURY OR DEATH!**

1. Remove all Vehicles and any other items from the garage which may give off fumes such as BBQ pits, butane heaters, burners etc.  
**PARTAY DOORS are Designed for Pedestrian Traffic only. Do not Drive Vehicles through or Hang/Swing on PARTAY Doors !!**
2. Hang Your PARTAY GARAGE DOOR. **Wing Nuts must be secured at each mounting location!!**  
**Cautions ~ Never hang or remove during an electrical thunder storm. Also, when moving your PARTAY panels between the mounted and storage locations, be sure to shuffle your feet between strips so as not to step on them and accidentally trip.**
3. Close the Garage Door
4. Or.. if you are not using the PARTAY...just close the door.
5. Turn on your Air conditioner or heater and allow the garage to cool/heat until desired temperature. Garage must be at the desired temperature before opening Garage door (2), if you have the clear PARTAY Door in place. **If Portable AC is used ~ Circuit Breakers must be GFCI for safety!**
6. When finished with the PARTAY ROOM, turn off your AC or Heater, Remove your PARTAY DOOR, store on storage hooks (**wing nuts must secure on storage hooks as well**) and cover hanger bolts with RUBBER PADS if activities such as basketball etc. are going to be played in front of the garage door

### **~Park Cars as usual~**

**Note:** If you choose to work on a car, motorcycle etc. taking advantage of the light and function of the PARTAY GARAGE:

- A. **NEVER** turn the vehicle on, with either PARTAY DOOR in place, or Garage door down.
- B. **NEVER** have your air conditioner or heater running when car engine is on moving in/out of garage.
- C. After vehicle is moved in or out, allow for maximum ventilation of fumes to occur and have motor shut off, before again installing your PARTAY door and turning on AC or Heat.
