

## AAMADER NOTICE BOARD

Dear Members,

After a brief pause, we are back. It is less than 3 months to our Pujo and our preparations are on in full swing. Various teams - such as Cultural Committee, Sponsorship Team, Ground and Pandal Development Committee, etc, have all initiated the different activities as per schedule.

Along with our pujo preparations, our social responsibility arm - Probashi Bondhu have been busy. We are happy to say that in the last two months, we have contributed towards helping underprivileged children of Vivekanand Balakashram and the children of Community Center, Turpe pada. These initiatives reflect the core values of Aamra Prabashi in positively impacted local communities.

In the next two months, we will initiate our door to door collection in Hiranandani Estate and around. We request all our members to help us in this initiative in whatever way they can.

This being our silver jubilee year of club formation, we look forward to making a very memorable Pujo and year for all our members.

Thanks

## Bringing back nostalgia

By Joyeeta Choudhuri

A deluge of welcoming shower after the scorching heat  
Splashing puddles here and there on the fiery street.  
Gloomy sky tireless of constant downpour.  
Children cooped up in their homes as the thunders roar.  
Green leaves happy with droplets on their blades.  
Pedestrians take refuge under the umbrella shade.  
Poor birds struggle to fly with wings heavily drenched,  
Lush green paddy nods their heads as their thirst is quenched.  
Moist winds blow through meadows swaying trees in rhythm  
Refreshing me to no end beyond the words can fathom.  
Croaking frogs raise their voice in dull monotony  
Proud peacocks dance away forgetting agony.  
Paper boats sail across much to the child's delight  
Ecstasy runs through rain bathed nature's veins alright.  
Now and then the sun winks as it peeps through clouds  
Rainbows painted in the sky as children cheer aloud.  
Come out in the street and rejoice for it's time to play.  
Hurrah now the schools are closed as it is a rainy day.

## Together We Share, Together We Care: Aamra Prabashi's Uniform Donation Drive for 55 Children of Vivekanand Balakashram, Yeoor Hills, Thane!!

By Team Prabashi Bondhu

July. 5, 2025 – It fills our hearts with great joy and pride to share a beautiful chapter from our journey of community service.

Aamra Prabashi, through its social welfare arm Prabashi Bondhu, recently organized a heartfelt initiative – donation of two sets of school uniforms for 55 children of Vivekanand Balakashram, a shelter home for boys, nestled in the serene greens of Yeoor Hills, Thane.

The uniform distribution ceremony was held at our very own Aamra Prabashi office – Astoria 504, Hiranandani Estate. The energy and innocence that the children brought with them lit up the entire space. Their smiles, as they received their new uniforms, were the most precious reward for all our collective efforts.

We were honoured by the gracious presence of our very senior Aamra Prabashi family members – Mr. A. K. Roy, Mr. Chandrashekhar Mukherjee, and Mrs. Kavita Mukherjee. Their warmth and good wishes added a special touch to this meaningful day.

We were also privileged to have with us our respected President of Aamra Prabashi, Mr. Subhashish Das, along with other Managing Committee members, whose involvement made this initiative even more impactful.

Moments like these reinforce the very spirit of Prabashi Bondhu – the social welfare arm of Aamra Prabashi, a platform that has strong belief in giving back, in uplifting, and in building a more compassionate world together.

The generous decision of Aamra Prabashi to support the children of Vivekanand Balakashram reminds us that when we come together with purpose, beautiful change becomes possible. Here how can we forget to say a big thank you to all those members of Aamra Prabashi, who came forward and contributed towards this donation drive.

## Dr. Srillekha Debnath's Enriching Visit to Seoul, South Korea: A Journey of Learning, Sharing, and Cultural Immersion

**Dr. Srillekha Debnath**, an academician, an Amazon Bestselling Author and a Performance Improvement Mentor, recently undertook an enlightening and inspiring visit to Seoul, South Korea. In this visit she was also accompanied by her Daughter Sohini Debnath, who is a Third Year MBBS student in Sri Devraj Urs Medical University, Kolar, Karnataka and her TechEntrepreneur Husband Tarashankar Debnath.

This was a visit that blended work with a touch of experiencing the cultural aspect of South Korea. During this visit she was involved in high-level discussions with education policymakers focusing on school education and the integration of cutting-edge technologies like STEM, Robotics, and Artificial Intelligence. These conversations underscored how deeply embedded technology is in the South Korean education system – a driving force behind the country's reputation as a global leader in innovation and technological advancement.

The visit offered Dr. Debnath a golden opportunity to engage directly with two school heads, their teachers, and students. She observed firsthand the dynamic teaching-learning processes within South Korea's hi-tech educational institutions. These interactions not only highlighted the strong pedagogical frameworks but also the ease with which young learners in South Korea are adapting to and excelling in technology-enhanced learning environments.

A special highlight of her visit was her interaction with school children, where she was invited to share inspiring stories from her latest book, *Echoes of Inspiration: A Bouquet of Inspiring Stories*, an Amazon bestseller. These interactive storytelling sessions were met with great enthusiasm, with students actively participating and drawing motivation from the real-life anecdotes and uplifting narratives. Dr. Debnath's ability to connect with the children left a lasting impact, turning the sessions into memorable and transformative experiences for many young minds. These sessions ended with children wishing in Hindi with words like Namaste, Dhanyawad and cheering her by saying : India , We Love You !! These children were delighted to hear Sohini speaking to them in Korean. Dr Debnath thanked the schools for extending such lovely hospitality to her and her family.

Beyond professional engagement, Dr. Debnath also immersed herself in the rich cultural tapestry of South Korea. From its tradition-infused modernity to its deep respect for education and innovation, the visit offered her a unique perspective on how culture and technology can beautifully coexist.

As she returned to India, Dr. Debnath carried with her not just new insights and inspiration for further educational advancements, but also a deep appreciation for Korean culture. The journey proved to be both professionally enriching and culturally illuminating – a truly remarkable chapter in her ongoing commitment to educational excellence and global collaboration!!
