

General membership in SA USA

Photo: Gardens at Granada, Spain

As of Fall Equinox (September 22), 2021, SA USA opens its doors to general membership. What does this mean?

Previously, in order to become a member of SA USA, one was to be an in-depth student of the living Gnosis today and the [Nemeta school](#) and to demonstrate competence in, and appreciation of, the body of knowledge presented by the school, at least at a basic level.

An adjustment to our understanding of the criteria for calling oneself a Sophianic animist has motivated a significant relaxation of the criteria for membership in the SA USA church (or religious assembly, for anyone who may object to the word "church").

Please visit the SA USA Website's [About Us](#) page and review the changes we've made to three of the church's founding documents, so as to acquire a better comprehension of this change and what it may mean for you and for all of us.
