Educational Enterprises Recording Company markets THE VOICE, a 26 minute DVD. THE VOICE is an innovative way to teach students about the human voice. Designed for use by choir directors and voice teachers from junior high school to college, this curriculum tool will provide many opportunities for discussion and create a better understanding of the voice.

- Three professionals discuss the function, abuses and care of the human voice:
- Charles Nelson, D.M., Vocal Pedagog, introduces beginning vocabulary of vocal structure and function
 - Austin King, M.D., Laryngologist, answers questions about voice problems
 - Jon Ashby, Ph.D., Speech Pathologist, discusses vocal abuse and and voice care

Use **THE VOICE** in vocal instruction classes and enable students to see a close view of the vocal cords of a singer at work. A booklet containing the material covered in the DVD, two tests and a crossword puzzle based on material presented is included.

Produced by THE VOICE INSTITUTE OF WEST TEXAS
EDUCATIONAL ENTERPRISES RECORDING COMPANY, Sole Distributor
