## World Geography (Green)

Teacher Name: Amanda Campbell

Class Cost:\$12 per child

Class Size: 18

Ages served: Green

Prerequisites (if any):None

**Class Description:** Geography is all about Earth's land, water, air, and living things. In this class we will learn about the tools that are used to help us understand our place in the world. We will also explore continents, oceans, and landforms while learning how geography shapes the lives of the humans and animals that live in various parts of the world.

Week 1:Tools for geography

Week 8: Our oceans

Week 2: All about maps

Week 9: Where we live - country and city

Week 3: Man made structures

Week 10: Our place in the world

Week 4: Land forms

Week 11: How geography affects humans

Week 5: Bodies of water

Week 12: How animals adapt to their geographical locations.

Week 6: Making a map

Week 7: Our continents
