The Collaborative Problem Solving® (CPS) approach is owned and developed by Think:Kids (T:K), a program based in the Department of Psychiatry at Massachusetts General Hospital (MGH) in Boston, MA.

Those CPS Certified receive ongoing supervision from T:K and are independent of MGH www.thinkkids.org

- Learn the Collaborative Problem Solving® approach & effective ways to reduce parent | child conflict
- Learn the profile of children who are differently wired
- Build skills & confidence using a relational | collaborative approach that teaches much needed coping skills
- Develop a new understanding of challenging behavior & learn new ways to help your child
- Rethink conventional approaches to behavioral difficulties and strengthen relationships
- Network & learn information about community resources that are neurodiverse affirming
- Surround yourself with the HBCC community of changemakers

The CPS® Approach

The Collaborative Problem Solving® approach is an evidence-based method to managing challenging behavior that promotes the understanding that **challenging kids lack the skill - not the will - to behave**; specifically, skills related to problem-solving, flexibility and frustration tolerance.

Unlike traditional models of discipline, the CPS approach avoids the use of power, control and motivational procedures and instead focuses on collaborating with the child | youth | young adult to solve the problems leading to challenging behavior and building the skills they need to succeed.
