- Develop a new understanding of challenging behavior & learn new ways to help your child
- Rethink conventional approaches to behavioral difficulties and strengthen relationships
- Network & learn information about community resources that are neurodiverse affirming
- Surround yourself with the HBCC Community of Changemakers

The CPS® Approach

The Collaborative Problem Solving® approach is an evidence-based method to managing challenging behavior that promotes the understanding that **challenging kids lack the skill - not the will - to behave**; specifically, skills related to problem-solving, flexibility and frustration tolerance.

Unlike traditional models of discipline, the CPS approach avoids the use of power, control and motivational procedures and instead focuses on collaborating with the child | youth | young adult to solve the problems leading to challenging behavior and building the skills they need to succeed.
