

Full video of the 6 on 1 attack can be viewed on OneSidedJustice.com

- 6 men can be seen walking up the sidewalk as they parked on a different street at 1:40 in the morning.
- Once the initial attack began – 1 of the 5 surrounding the 2 on the ground kicks my son back to the ground so his buddy could continue to beat him on the ground.
- The father can be seen moving toward the group for the first time at this moment absolutely preventing the remaining 4 from continuing to follow the first kick as you watch them stop moving forward with the father's demand to get the "F*** BACK!"
- The video shows my son in a full fetal position for the majority of over 20 full fistful blows to the head, neck, chest as he was not fighting back. At one point as the attacker continues more than 7 blows, my son appears to be completely knocked unconscious as he visibly goes limp in the zoomed in video.
- The video shows my son getting up from the ground in a dazed condition. Never bringing his arms up from his side as he is hit by at least 1 other attacker, possibly 2 except to hold his arm out stating "Stop, I'm done!" between these two more attacks.
- The 4th attacker can be seen at the end of the video standing in front of my son ready for his turn. The father would have testified that the 4th attacker told our son, "YOU'RE NOT DONE! I AM GOING TO F***ING KILL YOU!" as our son was stating over and over "Stop! I'm Done!"
- The video will show the individual who admitted in court to "trying to do anything he could to get the gun. I was trying to get behind him just to tackle him from behind to get the gun." Being the main aggressor towards the father throughout the majority of the video. He is also seen milliseconds before the gun is fired moving on his toes in a forward moving position corroborating the son's belief that he was moving forward to either take the gun once it was handed to him or was possibly moving forward for another beating or to group jump his father who was now in a physical altercation with the would be 4th attacker.

In support of our constitutional right to a fair trial,

Why were the police legally allowed to intentionally omit every action perpetrated by the 6 to give themselves the upper hand in court or during Probable Cause so no-one would be allowed to hear what they did?

Not one of the 6 were ever questioned about their actions that night. None of their actions were considered when deciding probable cause for the father who was charged with 6 counts of Conspiracy to commit Aggravated Assault and 6 counts of Aggravated Assault for handing the gun to his son because he made a decision NOT TO SHOOT!
