Dr. Snax Presents
Evidence Based Intuitive Healing

ENERGY HEALING & BODYWORK

An energy healing session involves intuitive healing using therapeutic touch to facilitate the body's natural unwinding of unbalanced healing patterns, at its own pace. I am not trying to change or fix you, just listen and encourage your body's innate wisdom with mindfulness-based bodywork and energy therapies. Reiki, grounding, aura reading, chakra balancing, channeling, somatic re-education & craniosacral mind-body nervous system wellness.

NATUROPATHIC EDUCATION & CONSULTS

A naturopathic educational consult involves listening to your story, sharing knowledge about the profound healing of naturopathy including natural remedies & modalities that exist, as well as, where to find them with plenty of resources and first-hand experience!

Join me for a body centered, team-based approach to healing that looks at you as a whole person, believes you, and helps you navigate the healthcare system while integrating your care! We can review your medical history, doctor visits, labs, imaging, and any diagnoses you want to know more about. Let me be your advocate!
