## WHO WE SERVE | WHAT WE DO

Vanguard Risk & Safety Advisors supports oil and gas, industrial, and construction clients with field-practical HSE program development, audits, training, investigations, and contractor prequalification support. We help operators, contractors, and prime teams improve safety performance, close compliance gaps, and stay work-ready.

Core Services	Outcomes Clients Can Expect
<ul style="list-style-type: none"><li>• HSE program development (manuals, SOPs, site-specific plans, toolkits)</li><li>• Site audits, inspections, and corrective action tracking</li><li>• Training support (H2S, PTW/LOTO, confined space, JSAs, hazard recognition)</li><li>• Incident investigation and root cause analysis</li><li>• Contractor pre-qualification support (ISNetworld, Veriforce, Avetta)</li><li>• Facility HSE support and compliance oversight</li></ul>	<ul style="list-style-type: none"><li>• Improved audit readiness and documentation quality</li><li>• Faster corrective action closeout and accountability tracking</li><li>• Stronger permit/JSA discipline and field execution</li><li>• Cleaner contractor pre-qual submissions and renewals</li><li>• Practical training support aligned to client requirements</li></ul>

## PAST PERFORMANCE / RELEVANT PROJECT EXPERIENCE

**SLB (Schlumberger) - South Texas / South US Land**  
Served in HSE and facility leadership roles across multi-site operations. Supported incident response, investigations, root cause analysis, corrective action plans, compliance oversight, and operational support across 87 SLB sites (43 active / 44 inactive).

**Major Operator Interface Support (through SLB operations)**  
Supported work aligned to client standards and OSHA requirements for clients such as ConocoPhillips, Marathon Petroleum, Murphy Oil, EOG Resources, Devon Energy. Assisted with incident response, SCAT analyses, and corrective action recommendations

## DIFFERENTIATORS

- NEBOSH-certified HSE professional with oilfield and facility leadership experience
- Hands-on background in high-risk industrial operations and contractor oversight
- Operational credibility from SLB field, training, and facility leadership roles
- Field-ready approach focused on usable systems, not paperwork only
- Can scale support to client requirements (project-based or ongoing)

### Fremin General Contractors

Provided HSE oversight support for construction projects in Texas, Louisiana, and Oklahoma, including work scopes involving wash bays, hazardous waste storage, explosive bunkers, radiation storage, and hazardous chemical storage areas.

### Enercon / Environmental Remediation Projects

Supported environmental remediation work in Texas with HSE oversight and adherence to state and federal permitting requirements.

### ReRoof of Texas - Pearsall, TX

Supported roofing project execution for facility energy conservation improvements with HSE oversight and OSHA compliance monitoring.

### C&W Services (SLB support)

Managed on-site support coordination across 43 active SLB sites to align local facility needs and OSHA compliance expectations.

## SELECT EXPERIENCE / LEADERSHIP SUMMARY

- Founder / Principal Consultant, Vanguard Risk & Safety Advisors (2025-Present): HSE consulting, site-specific safety plans, risk assessments, investigations, audits, training, and contractor prequalification support.
- SLB HSE Specialist / QHSE roles (2011-forward): Driver training, SIPP training support, incident response, audits, and compliance alignment across South Texas operations.
- SLB integration support: Assisted with Cameron integration training and standards alignment in South Texas (including Pearsall, Kenedy, and Corpus Christi sites).
- NEST trainer/facilitator support: Assisted onboarding and training efforts in South Texas, Permian Basin, and Kellyville, OK.
- Facilities Supervisor (SLB): Led facility operations, vendor management, KPIs, audits, and continued HSE training support across multiple regions until May 2025.
