

My Blue Sky

A hot night on the dance floor
A cold beer after work
A late night date with your lover
The best song that you ever heard
Bacon and eggs in the morning
Fresh air on a Hill Country road
A fishing trip down the river
Little spot nobody knows

They got nothing on you, babe
They got nothing on you
My blue sky

A lake house trip for the summer
Falling hard for your very first fling
Dreams high afloat on unblemished hope
New growth on your fruit trees in Spring
Stepping out on the field for the finals
Stepping off of a vacation flight
A day in the sun after years under the gun
For what you believe to be right

They got nothing on you, babe
They got nothing on you
My blue sky

The first light of a new day
Your last night on the run
To work hard and get paid
When all your hard work feels like fun
The smell of oak in a smokehouse
The satisfaction of doing it yourself
A brand new inspiration
You decided to take off the shelf

They got nothing on you, babe
They got nothing on you
My blue sky
