Beecher Baker Sr.
Superintendent of Schools

*"Let us think of education as the means of
developing our greatest abilities." JFK*

October 2, 2019

Recommendation: Duane Moulton

To Whom It May Concern:

As the School Superintendent at Hadley-Luzerne I want to take the opportunity to state my admiration for Duane Moulton as a construction manager.

Mr. Moulton has served as our construction manager on a \$9.8 million dollar project since the inception of the H-L Capital Project in 2016 through its conclusion in the fall of 2019.

Mr. Moulton's experience in all phases of construction was paramount in his ability to articulate in detail expectations to the various construction supervisors and brain storm through various issues and difficulties once they arose. He possesses an understanding of the capital project budget process which is unparalleled in his profession. His ability to get the most out of the various construction firms while keeping a keen eye on the budget has helped our district excel in the process.

Mr. Moulton was somehow able to complete a project that had been projected to take more than a year into an 8 month process. His relationship with the various contractors assisted in a smooth operation and when a jump start was needed Mr. Moulton ensured compliance.

Mr. Moulton would also take the time to check on faculty and staff to ensure that the building project was not interfering with the education process. At no time did I as a superintendent feel that I was not aware of the construction process or that there were issues not in my scope.

I highly recommend Duane Moulton as a Construction Manager on any and all projects you may have in the future. You will find in the bid process an economical and highly capable professional. If I may offer more insight please feel free to contact me at (518) 696-2378 Ext. 1108 or at bakerb@hlcs.org.

Duane Moulton may be contacted at dmoulton@cmk-construction.com.

Sincerely,

Beecher Baker Sr.

To Whom it May Concern:

The Town of Lake Luzerne hired Duane Moulton to be clerk of the works/contractor on a recent bridge replacement project. The bridge was destroyed by a bad storm and qualified to be a FEMA project with strict engineering and construction guidelines. Mr. Moulton adhered to all deadlines and provided that every stage was done in a timely manner with regards to weather and other natural obstacles. The bridge was completed under budget and within the timeline required. His organization and engineering skills are to his credit. The Town Board and I would definitely recommend him based on this performance.

With regards,

Eugene Merlino
