## **PRESIDENTIAL PROSPECTS BASED UPON THE INAUGURATION HOROSCOPE**

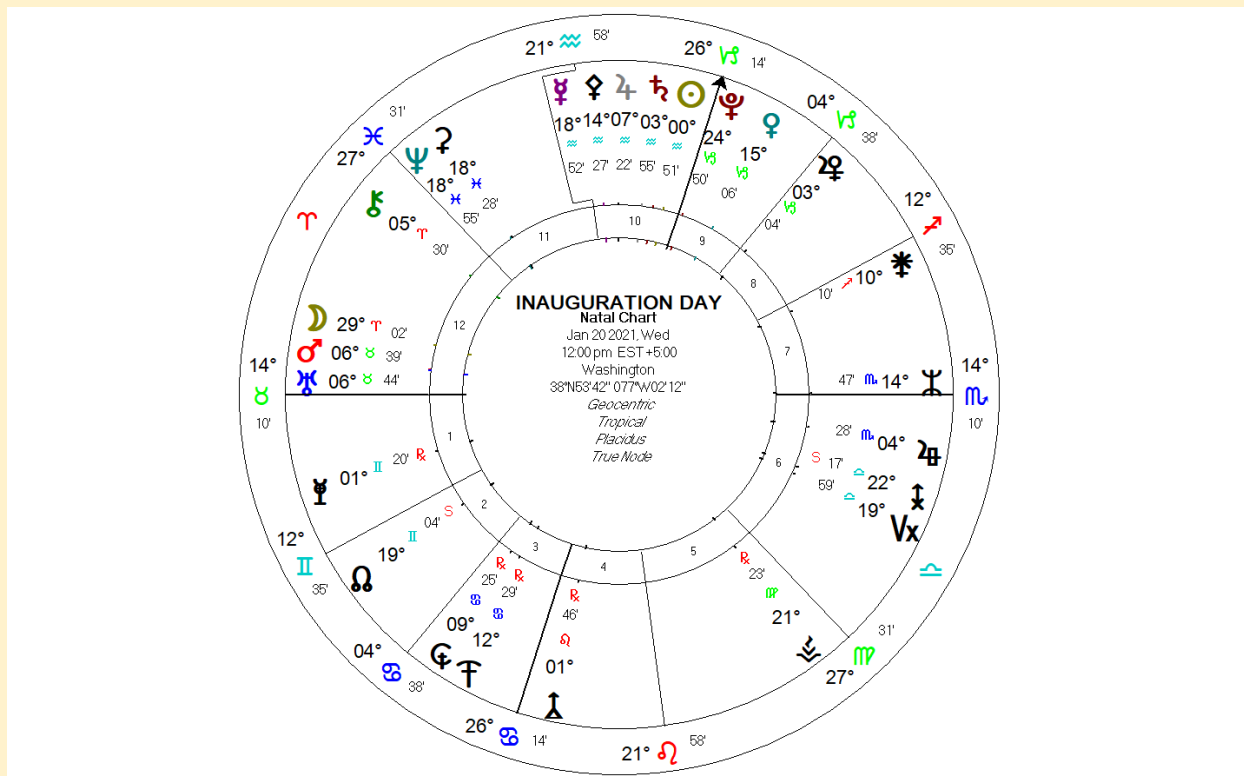

The charts suggest that there will be a change in the democratic presidential ticket. Below, we see the chart set for the 2021 inauguration. Here are some brief highlights. The Sun degree (0 Aquarius 51) is the same as that of the December 2019 Jupiter-Saturn conjunction (0 Aquarius 29). These degrees are on the Uranus/Pluto midpoints in each chart, respectively. This adds a great degree of instability to each chart. This could create sudden and dramatic changes. In addition, the likelihood of sharp shifts through technological change are high. In both, I think that the hot house rush to electric autos is symbolized.

At the beginning of the year, I noted that Pluto would transit the Sun (February 17<sup>th</sup>) and that progressed Sun would move right over Saturn (January 31<sup>st</sup>). This did prove to be a difficult period for the administration on 3 fronts: the President's health, his son, and weak numbers from the economy. Moving forward, progressed Sun is conjunct progressed Saturn on June 24<sup>th</sup>, only 3 days prior to the debate. On the 29<sup>th</sup>, Saturn stations conjunct Neptune and opposite Vesta, as well as hard aspects to Saturn, the Node and Ceres. Neptune-Vesta is a strong combination in the charts of both Bernie Madoff and Charles Ponzi. Saturn-Neptune can reveal scandals and Vesta rules paper securities. This combination was activated during the Bankman-Fried bubble crypto burst in the Jupiter-Saturn conjunction chart. On July 23<sup>rd</sup>, Pluto makes its second passage over the Sun, only 2 days after Saturn is conjunct progressed Neptune.

If the democrats are going to make a change at the top prior to the election, this late June-July is the time period. Pluto is change and the Sun is the ruler or boss. The fact that the Sun=Uranus/Pluto tells us that this can be a sudden and drastic change. The progressed Sun-Saturn conjunction has the effect of creating a Saturnine condition for about 6 to 9 months before and after its occurrence. Saturn discriminates and eliminates that which is unnecessary. In this case, the boss.

The likely manifestations are:

- A health crisis that removes the President from the scene
- A financial scandal that can no longer be suppressed
- A revolt in the democrat party.

If this does come to pass, other people and entities are highly likely to be affected. The question then arises as to who and how. First, Saturn will station opposite the President's MC on June 29<sup>th</sup>, a negative for his career and his reputation. It can also bring a change in residence. The horoscope of Kamala Harris shows a fortunate and sudden favorable change in her career:

June 10: Pluto sextile P. MC

June 18: Progressed Sun parallel MC

July 8: The first of 3 Uranus conjunctions to Jupiter.

The chart of Gavin Newsom shows no such favorable changes. In fact, the solar eclipse of Last April opposed his Sun, a combination that tends to knock one down in stature.

The chart of Hillary Clinton also does not show any outstanding configurations.

From June 21-29, there are hard Uranus contacts to the natal Mercury, MC, and the progressed Sun plus a progressed Sun 105 degrees to Saturn aspect in the May 13, 1792 chart of the democratic party. This suggests sudden decisions and changes in that time period, confirming the story from the other charts.
