

February 19, 2015

Dear Mr. and Mrs. Farmer:

This letter is to invite you to a soil health workshop. The goal of this workshop is to increase your awareness of soil health. As a farmer who has worked hard to implement soil health management practices on your farm, you realize that you are constantly learning new things. This event is an opportunity to hear from other farmers about their experiences and also from a soil health specialist who works with farmers across the country on soil health management.

This half-day workshop will be held at the Minnesota West Community and Technical College campus in Worthington on March 12<sup>th</sup> and at the Southwest Minnesota State University campus in Marshall on March 13. Registration begins at 9:30 AM for both days. A flyer is included with this letter.

The cost of the event is \$10 and a lunch will be provided. *The Renville County Soil and Water Conservation District will pay the registration fee for the first 25 Renville county residents that register for the workshop.*

Please RSVP to Barb Daly at the Rock County NRCS office at 507-283-9146 ext. 3 or email her at [barbara.daly@mn.usda.gov](mailto:barbara.daly@mn.usda.gov) by March 9<sup>th</sup>. If you need special accommodations, make sure you let Barb know when you register.

Sincerely,

Stephanie McLain  
District Conservationist
