

2016 All Ag Celebration Invocation

Dear Heavenly Father,
We gather together to honor
The blessings sent down from heaven
The rich soils that you have given

We thank you, for allowing us to gather
To celebrate our rural heritage, all together
As we share kindred, and the friendship
and the blessing, of our rural fellowship

We thank you, for our homeland
Here in the great Midwest, the heartland
Rural communities, with a main street
May they provide, a lively heart beat

You've blessed us, with the tools to work
Seasons that change, just like clockwork
You gave us, the faith to leap
To plant the crops, that we will reap.

You taught us how, to teach our young
To set them free, to the world far-flung
They tell our story, to those unknown
Rural life style, that they have been shown

The lessons learned, as your children mature
They learn from life, just how to endure
You gave us song, dance and romance
sporting events to cheer with chants

You send to earth, nature's soft rain
Which nurtures, bountiful crops of grain
You show us, the mystery of new life
Both livestock and wildlife

You give us pets, both cats and dogs
We'll raise your cattle, sheep and hogs
You provide nutrition, to those in need
From animals, and the growth of seed

You allow us to cherish, friends both far and near
As we come together, for another year
As one group, we are all the same
For these gifts, we praise your name

Bless this food, which we shall eat
Pork chops, potatoes and desert so sweet
Lord we ask this, of you tonight
Bring us together, to unite

Amen

I hope you enjoyed, my prayer and my poem
It's on the website, on the page called home
