To the Board of Managers of Turtle Creek Watershed District

APPLICATION FOR TILING & SURFACE DRAINAGE PERMIT

Applicants name & address: _____ Phone # of contact: _____ Landowner (if different) & address: _____

PROJECT LOCATION: (Complete information if known)

Township _____
(Name & #) _____ Section(s) _____ County _____
Quarter section description _____ Range # _____ Parcel No _____

Please attach a copy of a **FSA Map** with a **Description of Proposed Project**. Use this map to draw in your farm, your outlet, and the proposed work. Include all pertinent information in describing the work to be done with this permit on this map. Include area drained, footages and sizes of tile for tile drainage projects. If more room is necessary please use the backside of this permit.

Describe this Property's Outlet to JD24: (fill in the appropriate number or mark with "x")

Judicial or County Ditch No. _____ Geneva Lake _____
Judicial or County Tile No. _____ Ditch without agreement _____
Private Ditch with agreement _____ Proposed New Ditch _____
Private tile with agreement _____ Contained Reservoir _____

Describe on the backside of this form, any agreement for maintenance of the outlet to JD24 if the outlet is not a Judicial or County Ditch. Please provide the board with a copy of the signed agreement.

Is this permit for tile which outlets into a pump station? _____. An updated 2004 pump station permit is require. If the 2004 pump station permit is not on file please complete, sign, and attach a 2004 pump permit form with this permit.

If the permit application does not outlet into a public ditch system, or is not part of a "Drainage Agreement" which is on file with the Board, then the applicant must have the signature(s) on this form (see below) of the next downstream landowner. Signatures are required when outlet water from the proposed drainage project discharges:

- 1. into the next downstream landowner(s) private tile,
- 2. into the next downstream landowner(s) private ditch, and/or
- 3. over and onto the next downstream landowner(s) property.

Signature(s) below of next downstream landowner(s) (if applicable)

_____ Date _____

Applicant's Signature: _____ Date _____

The Turtle Creek Watershed District Board of Managers reserves the right to waive the necessity for adjacent landowners' signatures when engineering data shows that adjacent landowners will not be adversely impacted by this project.

This permit is valid for one year from the Date of Board Action. To extend this permit, send a letter to the board before the expiration date listing this permits TCWD Permit #. This Permit only applies to the permitting authority of the Turtle Creek Watershed District under Minnesota 103.D. The applicant is responsible for complying with all other agencies and governmental permits and regulations, including but not limited to DNR, Corps of Engineers, NRCS, WCA, and FSA rules, permits and regulations.

(For District use)
Action Taken _____ Date of Board Action _____

Conditions of Permit _____ Date Permit Expires _____

TCWD Permit # _____ (Revised 02/17/04)

RESOLUTION

BE IT RESOLVED, that The Turtle Creek Watershed District, as

Drainage Authority for public drainage systems, under Minnesota Statutes 103E, requests that the Federal Emergency Management Agency reverse and change their recent policy change that denies payment of disaster relief benefits to Public Drainage Authority for the repair of disaster damaged drainage systems as a result of what we, as the Drainage Authority, believe is a misinterpretation of Minnesota Drainage Law and the Stafford Act.

Dated this 2nd day of January, 2002

X_____
Thomas W. Butler
Chairman,
Turtle Creek Watershed District

“I will not support increasing
the flow capacity of any bridge
in the watershed.”

Arlen, 7/15/03
