# Training and Education

**Gimel Professional Services** offer professional development and skills training services for individuals and organizations.

**Gimel Professional Services** offers practical AI enablement and digital training development. This offering includes AI literacy workshops, curriculum design, and no-code workflow coaching using accessible tools like Notion, Airtable, and Zapier. Specializing in building structured systems that help experts deliver repeatable, scalable outcomes without relying on heavy infrastructure or IT lift. This capability complements GPS's mission by giving clients modern, efficient enablement strategies that strengthen the results of executive coaching, HR transformation, and workforce development engagements.

**Professional and Management Development Training:** We specialize in enhancing leadership, communication, and management skills. Our training programs are designed to improve performance, foster career growth, and strengthen organizational effectiveness.

**Computer Training:** We provide comprehensive training in various software applications, programming languages, and IT skills. Our courses range from beginner to advanced levels, ensuring participants gain practical and relevant technological expertise.

**Educational Support Services:** We offer administrative and logistical support for corporate training departments educational programs. Our services include curriculum development, student registration, scheduling, and other essential functions that help corporate training departments run smoothly.

**Need to boost your team's skills?**
