

Round the Corner — Press One-Sheet

Vendor-first food ordering for independent food businesses

Round the Corner (RTC) is a vendor-first platform for Chefs, Caterers, Home Cooks, Bakers, and Food Truck Owners. The public website is informational only; all ordering, bookings, and payouts happen in the mobile app. Our focus: transparent fees, daily payouts, and keeping more revenue with the people who make the food.

Highlights

- Vendors typically keep over 90% per order (see Pricing page for examples).
- All transactions occur in-app; the website is information and onboarding only.
- Transparent fees and publicly posted policies (Privacy, Terms, Customer Terms, Fraud Policy).
