

I have been working with Tony Lind Paving for eight years and we have completed dozens of projects together. It is without hesitation that I recommend anyone in need of asphalt paving use Tony Lind no matter the size of the project. Tony has repeatedly come through for me on last minute requests and continues to surprise me with his ability to work with our uncontrollable schedules. The product that he provides is of the highest quality whether it needs to be or not. The level of service he provides from estimating and preconstruction through construction is unparalleled in my experience with asphalt paving contractors. In the unlikely event of a problem with the work, Tony has always stood by his product and handled any issues with professionalism and care.

I would like to express my gratitude to Tony Lind Paving and all of their great employees who have helped make many of our projects a success through our partnership.
