## **Testimonials**

To whom it may concern, I have been working with Tony Lind Paving for over 2 years and I have never had a single complaint. My area that I cover goes from Arlington to South Seattle which that means I cover 36 cities and a lot of inspectors. Tony averages about 10 jobs a week for me so in a 2 year time with no complaints that says it all. He does excellent Concrete and Asphalt repair including aggregate drive ways in very high end neighbor hoods. Also when I have a very hot job that I need to get taken care of he gets on it right away. Tony's crews are all very professional and courteous when I have been on jobs with them it is a pleasure to watch because you will not see one guy standing around. I highly recommend Tony for all of your work you will not be disappointed.

If you have any questions please feel free to give me a call.

Thanks Bill

...the project turned out great thanks for the quick turn around.  
The contractor performed seamlessly and the patches in 228th are exceptional and the concrete work looks great as well. Tony Lind can work in Bothell anytime great job!!!

Thanks again to all Henk
