

Axiom Electronics PCBA Design for Manufacturability Guidelines

Section: 10.12	Revision: A	Revision Date: 2/14/13
----------------	-------------	------------------------

DFM Subject: Gold Plated Edge Connectors and Grounding Strips

DFM Requirement:

- Gold plated edge connectors and grounding strips shall have adequate clearance between them and surface features (i.e. trace, pads) to lay down gold plating tape.
- The minimum clearance shall be 0.75mm (0.030”).

DFM Impact:

If the minimum clearance requirement is not provided the PCB cannot be fabricated.

DFM Details:
