

ABOUT ME

HI, I'M KRISZTINA WAGNER

With over 10 years of experience in design, my journey began in news graphics at the Hungarian RTL, where I was first introduced to 3D design - a passion that quickly took root. After relocating to the Netherlands, I established my freelance design company in 2019, and since then, I've had the pleasure of working with a diverse range of clients.

From projects in the Hungarian private healthcare sector to collaborations with a German tech and event company, I've had the opportunity to contribute to visuals for major brands. Additionally, I've worked with startups and have received recognition from Adobe for my creative work. While my focus is now primarily on 3D design, I continue to offer graphic design services, allowing me to provide a full spectrum of visual solutions that often combine both disciplines.

I invite you to explore my portfolio, where you'll find a diverse selection of projects that showcase my approach to design and attention to detail. Each piece reflects my commitment to delivering creative, impactful solutions tailored to meet the unique needs of each client.
