# Smart Hamlet HuaHin

## The Origins of the Smart Hamlet Project Hua Hin

With the ongoing Covid 19 situation many foreigners are looking to retire in Thailand yet they struggle to find high-quality at affordable prices coupled with a great, tropical lifestyle. The majority of projects available in Hua Hin are pool villas, which can be big and expensive and not designed to cater for more senior buyers. Therefore, the Smart Hamlet Hua Hin project seeks to create a community of mature, like-minded retirees seeking a tropical lifestyle in a beautiful, peaceful location.

The Smart Hamlet will be the 6<sup>th</sup> Smart House project and will run in conjunction with our project of larger pool villas Baan Phu Thara which is located nearby. What this means is that both the sales team and the construction team have a wealth of experience with looking after buyers, taking them through the sales process and building them a home. At the Smart Hamlet we can offer both freehold and leasehold purchases depending on your requirements. We have an excellent legal team that can help and advise you, not only with the purchase but also with other matters such as making a will to ensure the property is inherited by your loved ones.

# Smart Hamlet HuaHin

## Exceptional Design

The villas at Smart Hamlet are designed to maximise the use of the space available making them fully-functional. We understand the needs of our clients and the villas are economical, convenient and constructed to high standards. Plus the villas are customisable with choices of tiles, kitchen, furniture, fitted furniture and trees.

## Ecologically Advanced

We are now living in a world where we need to be a little more responsible with the environment. This is a serious consideration for us so we have included such features as solar panels, underground electrics, double glazing and Q con superblock walls which serves to lower electric bills and save energy. The project is next to the Sam Phan Nam river which we can use to water the communal areas negating the need to tap into the government supply.

# Smart Hamlet HuaHin

## **We have all the Bases Covered**

The Smart Hamlet aims to cater for those who require peace and quiet but also security and convenience. With 24 hr security, a shuttle bus service and full-time management staff we have taken into consideration all of your needs. Whether you need a trip into town, an appointment at the clinic or somebody to help you to open a bank account our professional, full-time staff will be happy to help.

## **The Communal Area**

The Smart Hamlet will have a large communal area where residents can socialise, enjoy a drink and have a swim in the large communal pool all while taking in the views of the surrounding mountains.

## **Security Features**

We understand the need for people to feel safe in their own homes so the project will have 24 hr security and CCTV as well as alarms on the properties as standard.

# Smart Hamlet HuaHin

## History and background of the project owner

Mr. Ekarat Supakarn (left in picture above) is a local businessman with over 27 years of experience as a construction engineer. Born in Pranburi District south of Hua Hin His family is local in the area and has earned an outstanding reputation for honesty and professionalism. He graduated in civil engineering as a civil engineer and worked for a well-known real estate development company. Quality Houses Public Company Limited in Bangkok and started to do construction and development of land in his hometown.

In 1989, founded Supakarn Real Estate Service Co., Ltd. and in 2004 he established Hua Hin Quality House Construction, both are construction and management companies. Pool Villa Project and received construction contracts for projects that have jointly developed land for partners The past projects include 5 Smart House Hua Hin projects and Baan Phu Tara Phase 1 project and are continuing with Phase 2 and Phase 3.

He has won the trust of both domestic and foreign customers. Due to professional team He consistently delivers quality work on time. He has assembled a team of skilled architects and engineers and a team of professional builders. He carefully selected his team. Over the years they have proven their skills. professionalism and reliability expertise His contributions to the construction and development of housing, especially pool villas.

- ❖ Proposed land area 9.5 Rai  
(15 380 m<sup>2</sup>)
- ❖ 30 private pool villa
