Scope of Work

[Redacted Scope of Work Title]

Good afternoon. Based upon my discussions with our driller and a review of the site visit notes, we propose to furnish all labor, equipment and materials necessary to install a new water system at the above referenced project based upon the following information: **Actual well depth after drilling was 275-feet, producing 10-gallons per minute**

Water System Package

- 10 GPM Franklin® 3200 Series Stainless Steel Submersible Pump
- ¾ HP, 230 Volt Franklin® Stainless Steel Submersible Motor
- 1" HDPE Poly (200 PSI) Deep Drop Pipe
- No Lead Certified Heavy Duty 304 Stainless Steel Pitless Adapter
- All No Lead Certified 304 Stainless Steel fittings down the well
- NSF 61/FDA approved pump Torque Arrestor
- 1" (200 PSI) Poly Ditch Pipe run to the structure
- Double Rubber Jacketed Submersible Pump Cable
- UF direct burial Ditch Cable
- All Stainless-Steel fittings and electrical as necessary
- Flex-Con® CSS-22 (22 gallon) Pressure Tank
- No lead certified Campbell Mfg® 304 Stainless Steel Tank Tee Assembly w/ Controls
- Disinfection of new well / system.

System estimated upon 240' -foot pump set with 200' offset to the structure.

If offset excavation for water supply line and wire cannot reach a depth lower than the grade of frost in said region, an insulating air sleeve will be installed to ensure the integrity and prevent freezing of the water supply line at a cost of \$3.97 per foot.

Options:

- Frost Proof Hydrant(s): Add \$322.52 each
- E-Z Drain system : Add \$286.00
- Flex-Con® CSS-35 gallon tank upgrade: Add \$385.00
- Flex-Con® CSS-50 gallon tank upgrade: Add \$625.00
- Constant Pressure Variable Frequency Drive upgrade: Add \$1,468.99
- Mock Rock decorative well cover: Add \$464.06
- Submersible Pump Protector : Add \$438.14

* Excavation is rough excavation, not finish landscaping. Racking, seeding, hay, and top soil available upon request. We attempt to back fill with any drill cuttings produced during the Well Drilling process, if possible. As stated in the contract "any debris that is normally produced during the drilling process is the home owner's responsibility***". Excavation is billed per hour with a 5 hour minimum at a rate of \$175.00 per hour. Actual invoice may vary.**

If any digging is required for your installation, we will schedule with Dig Safe to mark any and all utilities. Power, Gas, Phone, Cable etc. This could take up to 2 weeks.

On average we save our customers a 1/2 horsepower or more in pump electric motor size of which equals cost savings for years to come! Our Systems come with a 7 Year Warranty on the Submersible Pump and Tank with 1-year "Turn-Key" Warranty on all parts and workmanship. Our systems are designed using a majority of domestic American made products. After the well has been cleared, we will provide a free Water Analysis and Consultation to determine if a conditioning system is recommended.

Our systems are designed using a majority of domestic American made products.

Proposal / Estimate valid for 30 days. All work is as per our Standard Water System Agreement of which bonds to and forms part of this proposal. *All billing per actual line items. All of our work is considered a Capital Improvement on the property therefore there is NO SALES TAX charged.

Thank you for the opportunity to offer our proposal and we look forward to working with you. To schedule or if any questions arise, please do not hesitate to contact me.

Respectfully submitted,

Charges

Notes

Pump system Contract Notes and Terms

Proposal is valid for 30 days. All options need to be finalized prior to the day of installation. All pricing is cash or check, credit card transactions are subject to 3.9% processing fee. Key decision maker needs to be present at install. All open invoices need to be paid or a payment plan in place before proceeding with further work.

Terms

AMBER WELL DRILLING, LLC. EQUIPMENT SERVICE/SALES: GENERAL TERMS AND CONDITIONS

THIS ORDER INCLUDES INFORMATION REQUIRED BY STATE AND FEDERAL LAW

1. ACCEPTANCE. By signing the front of this Customer Order (Order), you accept the Amber Well Drilling, LLC (AWD) equipment

and/or services described there and agree to be bound by the following terms and conditions. This Order is the entire contract between you and AWD. No promise, statement or representation by any employees will be binding upon AWD unless it appears in this Order. Also, no promise, statement or representation of any of AWD agents or employees will relieve you of any obligations you undertake with this Order.

2. **PAYMENT; SERVICE CHARGE.** You agree to promptly pay all amounts due under this Order. If you fail to do so, you agree to pay all costs of collection proceedings including the cost for reasonable attorneys' fees.

A SERVICE CHARGE at the ANNUAL PERCENTAGE RATE OF 24% (2.0% per month) or the highest rate permitted by law, whichever rate is lower, will be imposed on all amounts that are past due when they are outstanding for at least 30 days. There is a minimum service charge of \$20.00. Finance charges are imposed on a past due amount on the first of the month. If your account is past due for more than 30 days on the first of the month, a finance charge will be imposed on that amount. You will avoid finance charges by paying in full before the first of each month. AWD will apply your payments first to pay any finance charges, and second to pay the principal amount. Your finance charge is based on your last principal balance not including prior finance charges.

3. **ENTRY.** By signing this Order, you authorize AWD to: (a) enter the premises to install and service the equipment, (b) do work on, or make changes to, your premises, if installation or service of equipment is part of this Order. Your authorization permits AWD to enter whenever AWD considers it necessary or convenient to accomplish the purpose of this Order and remove the equipment in accordance with Article 9 of the Commercial Code of the State of New York. If AWD is required to make additional trips to the equipment installation site because the equipment is inaccessible, then AWD, at its option, may impose its prevailing special trip fee.

If this Order authorizes AWD to furnish you with an equipment service, by signing this Order, you authorize AWD to enter the premises when this Order is terminated. AWD will make reasonable efforts to arrange a mutually convenient time to enter the premises and remove the equipment.

4. **PLUMBING SYSTEM.** The installation of equipment does not include any repairs to your plumbing system. Replacement of gate valves or draining down of pressure tanks, for example, is not included in this Order. Anything that would be considered a repair to your plumbing system will be billed as an extra expense at regular and customary rates. AWD reserves the right to decline to make repairs and to refer you to a licensed plumber.

5. **MAINTENANCE.** It is important that this equipment be maintained according to manufacturer instructions, including replacement of filters and other components.

If your water quality, water consumption, water pressure or flow rate change, or if maintenance of the equipment is affected by external factors such as sand or sediment or an inadequate water supply, different or additional equipment may be required. At your request AWD will furnish the required equipment at AWD customary charges then in effect.

6. **LIMITED WARRANTY/LIMITATION OF LIABILITY.** AWD warrants the equipment and any other materials that are provided under this Order, AWD warrants such equipment and materials against defects in material and workmanship for the period specified in the manufacturer's limited warranty, or as otherwise specified in this Order. AWD obligation under this warranty is limited to repair or replacement (at AWD's option) of equipment or other materials provided that AWD reasonably determines are defective in material or workmanship, as long as you notify AWD within a reasonable period of the alleged defect.

This warranty will apply only if the equipment or other materials furnished under this Order are: (a) used in a manner that strictly conforms to the written operating instructions furnished by AWD; and (b) with supplies, system elements or components that are technically satisfactory for use with AWD products. This warranty will not apply if the equipment or materials have been modified, repaired or tampered with by anyone who is not authorized by AWD. In addition, this warranty will not apply if the equipment or materials have been subject to negligence or misuse committed by anyone, other than AWD employees or accident. Changes in Supply Water Chemistry cannot be predicted, and as such will void the application warranties as set forth herein.

If you have purchased equipment with this Order and you have requested AWD to do so, AWD has made available for your inspection a copy of the applicable warranty prior to purchase. AWD will provide you with the warranty when the equipment is installed. To the extent specifically stated in the manufacturer's warranty or on the front of this Order, AWD warrants any labor provided under this warranty for the period stated.

To the extent permitted by law, AWD disclaims all implied warranties including, without limitation, warranties of merchantability and fitness for particular purpose; to the extent permitted by law any such implied warranties are limited in duration to the periods and for the parts specified in the manufacturer's limited warranty and this Order.

Your sole remedy against AWD for products, services and work furnished under this Order is under the warranty stated above. This limitation applies to remedies arising out of this Order or otherwise in connection with the equipment, other materials or services provided by AWD. In no event shall AWD be liable to you for damages of any nature, including but not limited to direct, incidental, consequential, special, general or otherwise (including but not limited to property damage), except as specifically stated in this Order.

ANY ACTION RESULTING FROM THE DELIVERY TO YOU OF GOODS OR SERVICES UNDER THIS ORDER MUST BE COMMENCED WITHIN ONE YEAR AFTER THE CAUSE OF ACTION HAS ACCRUED.

YOU ASSUME ALL LIABILITY FOR INJURY OR DAMAGE TO OR ARISING OUT OF POSSESSION, USE OR CONTROL OF THE EQUIPMENT, INCLUDING BUT NOT LIMITED TO PROPERTY DAMAGE. YOU AGREE TO OBTAIN INSURANCE TO COVER ANY SUCH LIABILITIES.

New York State law shall govern any limitations on implied warranties. Similarly, New York State law will govern regarding any exclusion or limitation of incidental or consequential damages. New York State law will govern as it relates to specific legal rights you may have regarding this contract.

7. Amber Well Drilling, LLC shall not be responsible for restoration to lawns, gardens, siding, sidewalks, walls, driveways, or underground or overhead utilities resulting from the ordinary use and operation of our equipment. Customer is to furnish ingress

and egress. In the event an ingress and egress is not provided an additional fee may apply. Amber Well Drilling, LLC shall furnish all labor, machinery and materials needed for our work. We insure all our workers, equipment and guarantee all materials used. Company representatives are not permitted to change any printed terms of this agreement. This agreement can't be changed orally and all changes must be in writing.

8. CANCELLATION. AS PROVIDED IN THE NOTICE OF CANCELLATION on the front of this Order, if you cancel this Order, you agree to pay any time and materials charges incurred by AWD.

Provided that the work has not already been completed, the owner may cancel this Order until midnight of the third business day after the date on which the owner has signed this Order. Cancellation occurs when written notice of cancellation is given to AWD. Notice of cancellation, if given by mail, shall be deemed given when deposited in a mailbox, post marked, properly addressed and postage prepaid. Notice of cancellation shall be sufficient if it indicates the intention of the owner not to be bound. For the purposes of this paragraph the term "owner" shall mean an owner, any representative of an owner or agent of the property to be worked upon.
