

Thank you for your interest in being featured in our Gather & Grow series. Our mission with this series is to share community resources with local families. This event is offered free of charge to families in Pensacola and the surrounding areas. During the series, local service providers have the opportunity to share information about the services they offer and answer questions from caregivers.

Please submit the following information in a single email to Info@Innovative-BCS.com to be considered as a series feature.

- A description of your company and the services you offer. Be sure to include your mission statement and company/ provider values.
- 3 professional references from current or past employees that detail how they believe your company's services have a positive impact on our community.

Once you have submitted the items listed above, a member of our team will reach out to you for a brief, phone interview.

What to expect if you are selected:

We schedule features based on the requests of caregivers. Once it is noted that caregivers are looking for more information on the services you provide, our team will reach out to you to schedule a presentation. Presentations are held on the first and third Tuesday of each month at 7:00 pm CST.

Before

Prior to the event, you will receive a list of questions that we have gathered from caregivers. Please plan your presentation accordingly. We also ask that you submit a flyer with information regarding your services.

During

This is a one-hour biweekly event. Plan to spend the first half presenting your services while answering questions that were previously submitted and the last half answering follow-up questions. You will have a moderator during this time.

After

After the event staff from Gather & Grow will send your information to our email list of caregivers in the area.
