

Even in the Covid-19 pandemic lockdown we stand for the youth

As our beneficiaries especially teen mothers have many problems in their families such as *rejection, poverty, depression and family conflict*, many of them use to work for other people with the aim of gaining food for their children. CPJSP as an organization which stand for the youth and in our ECD program, we organized a campaign of feeding the **most vulnerable 63 teen mothers**. This activity was conducted in April and May in Rukoma, Ngamba, and Rugarika sectors of Kamonyi district, Southern province of Rwanda.

Each beneficiary received food items consisting of 4 kg of beans, 5 kg of maize flour, 5 kg of composite soy blend flour, 2 kg of sugar, soap and 1 liter of cooking oil and a face mask. With this assistance, our beneficiaries are able to cope with daily living challenges caused by this bad situation of COVID-19. We have seen that in this time they need a balanced diet food themselves and for their children.

We thank very much all of people (especially the families Dave and Wendy Lovely, David and Michelle Shaw, Anna Martine and CPJSP Board and staff) who financed this activity may God bless you so much.

We recognize that you did an action with love!

The way forward

As those teen mothers have many problems especially (intolerance, misery, poverty, school dropout, diseases, family conflict, rejection,
