WHY CHOOSE ... NOWLINGMANOR?

At NOWLING MANOR we provide publishing services to authors of all genres. Our specialty in the publishing industry helps first-time authors develop manuscripts through our unique 20-point questionnaire, coaching, and content development process. We help our clients bring their stories to life, as well as getting their stories into the hands of new readers and avid supporters.

WHY SHOULD YOU WRITE A BOOK?

Just like other stories told, yours is unique. You possess unique qualities. Think about how many love stories and movies have been written, published, and produced. Too many to count? Well, be one of the new additions. Yours may just be the one the world has been waiting for...

YOU CAN CREATE A OR HERITAGE ... FROM YOUR OWN CULTURAL PERSPECTIVE!

Legacy

Most of the materials and books are written from a European Perspective and writing a book from your cultural perspective will enable you to meet a need to bring a voice that has not been widely heard or experienced in a language that will resonate with the voiceless and the invisible. At Nowling Manor, we aim to publish books that captivate, inspire, and inform. We are committed to fostering a diverse literary landscape, supporting voices from all backgrounds, and bringing exceptional stories to readers everywhere. Our mission is to empower urban communities with relatable and inspiring content, fostering connection and understanding of their unique stories. We offer authors, speakers, and hosts opportunities to expand their messages globally. Targeting African, Caribbean, and Latin markets, we reach audiences seeking content from storytellers and inspirational figures who resemble them.

PERFECT TIMING

INSTANT CREDIBILITY

MONETARY VALUE

- 1. Perfect Timing:** There will never be a perfect time to write your book. Like every bestselling author, you too will start with a pen and a blank sheet of paper. At NOWLING MANOR, we are here to guide you through the process. Let's get started writing that biography, family history, poem, novel, children, young adult, educational, social-cultural, political, and religious books.
- 2. Instant Credibility:** From a business perspective, writing a book is the fastest way to gain credibility, establish yourself as an expert in your field, and build a professional reputation. It can also be used as a promotional item and marketing tool for your business
- 3. Monetary Value:** Do it for the money! If your book sold 10,000 copies at \$15, you'll generate \$150,000 in gross revenue. It's safe to say you could earn more than \$70,000 after taxes and fees. Imagine what an extra \$70k will do for your life. You can invest, save for retirement, and/or start a business without debt. By not writing and publishing that great story, you'll never know.
