

WHAT DOES BODHI COMMUNICATIONS ACTUALLY DO?

Based in St. Augustine, *Bodhi Communications* is a marketing and advertising agency built with small-business in mind.

Mission Statement:

We believe that marketing and advertising services should not just be for large companies. Traditional agencies tailor their services to clients with large marketing budgets or have pre-established brands, but your business or organization might need both. Our mission is to provide effective brand strategy and development to promote strong communication between our clients and their audience.

Social Media

As a business owner or manager, you play many different roles, and finding time for them all can be challenging. The importance of your presence on social media is at an all-time high. Still, you cannot always allocate the time to manage your channels properly. *Bodhi Communications* is experienced in social media management, growing your channels and engagement organically and through paid advertising.

Advertising / Marketing

Advertising and marketing your business can be scary. Many advertisers are only concerned with a specific project or campaign; missing the comprehensive branding and voice across your media. *Bodhi Communications* is proud to offer a full range of strategy, design, and marketing services so your brand has a clean and consistent voice across all your platforms. Whether you are looking to build awareness through social media, run an advertisement in traditional print, refresh your business cards, or a combination of them all, we work closely with you to strategize and design everything.

Web Design

Now more than ever, having an engaging, user-friendly, optimized website in this evolving digital world is essential. Whether you are a small shop that never saw a need for it, a restaurant that needs an easy-to-update platform, or yours is outdated and needs refreshing, *Bodhi Communications* has extensive experience in developing professional, optimized websites your customers can find and navigate with ease.
