

## Consultation

Every Consultation incorporates applications of the classical school of Feng Shui; combination of *Form*, *Compass* and *Flying Stars*.

### Prerequisites for the Consultation:

1. **Floor plan** (to scale; indicating all windows, doors, etc.).  
Please note: The floor plan is crucial for the Feng Shui Consultation and the more exact it is, the more exact the results will be. Ideally, the plan – for each floor – should cover at least a regular page (A4).  
If the floor plan is not available for any reason, a new plan may be requested (please refer to price list for details).
2. **Date of birth, and time if known**, for resident(s)/business owner(s) (and most important employees).

### The consultation process and the report

The Consultation provides the client with a very comprehensive service and incorporates a detailed Report. The Report contains suggestions based on classical Chinese Imperial Feng Shui methods, and gives practical instructions.

1. A maximum of 2 hours\* will be spent on site, covering the inside and outside of the domestic or business property.
2. The Report will be sent to you within 10-14 working days after the Consultation.
3. The client will be contacted (via telephone or email) in order to discuss any questions you may have after your receiving of the Report.
4. For any further inquiries, the client will have the opportunity to make inquiries (via telephone or email) for 30 days.

*\* NB: The length of time that a consultation takes for a business varies greatly according to its size and the number of recommendations or design advice required.*
