

## Driving \$mart – “Tools for a Lifetime”

1. Alignment
2. Anticipatory Focus (AF)
3. Awareness
4. B Mode
5. Battery Preconditioning
6. Block Heater
7. Cabin Preconditioning
8. Charging modes
9. Charging Times
10. Closing Windows
11. Coasting
12. Cruise Control
13. Daily Goals
14. Daisy Chaining
15. Dead Stopping
16. Driving with Load (DWL)
17. Driving Without Brakes (DWB)
18. Eco Mode Setting
19. Eliminate Weight
20. EV/Hybrid Modes
21. Eliminate Weight
22. Excess Drag
23. Face Out Parking (FOP)
24. Idling
25. Keeping Right
26. LRR Tires
27. Mental Preparation
28. Momentum
29. Parasitic Load
30. Phone Apps
31. Pro Active Scanning (PAS)
32. Pulse and Glide (P&G)
33. Rabbit Stop Lights
34. Relaxed Attitude
35. Roof Racks
36. Route Planning
37. Route Timing
38. Safety Buffer Zone (SBZ)
39. Scan Gauge
40. Smart Acceleration
41. Smart Braking
42. Speed Limit
43. Synthetic Oil
44. Timing Stop Light
45. Tire Pressure
46. Tire Rotation
47. Tune Ups
48. Vehicle Selection
49. Vehicle Set Up
50. Weighted Lights

“Tools for a Lifetime” are the hands-on part of the D\$W Drive \$mart training program. With this training, a driver can become a “One in a Million” driver and achieve the following benefits:

- *Increase fuel savings of 20% or more*
- *Increase electric driving range of 10-20% or more*
- *Lower vehicle maintenance costs by 10% or more*
- *Lower tailpipe GHG emissions of 20% or more*
- *Lower potential of accidents*
- *Help mitigate the effects of climate change*

**“The Fuel of the Future is...Efficiency”**
