

Drive\$MART W I S C O N S I N

As nice as it would be to own an EV, they may be out of your immediate price range and perhaps a conventional vehicle that gets good mileage may better fit your needs. But in the meantime, you can start saving money immediately to purchase a new vehicle by learning to **Drive \$marter in your current vehicle**. Lower your fuel costs today and put that money towards a newer car tomorrow. We're glad to help you!

If you are willing to change your driving habits, then **Drive\$mart Wisconsin** will be at your service. After 13 years of hands-on training, the following **D\$W** tips have been proven to save you money, every time you drive. They will work both to maximize MPG in gas cars and extend driving range in electrified vehicles.

Potential fuel savings at \$2.50 per Gallon

	Fuel Economy Benefit	Potential Savings/Gallon
1. Non-aggressive driving	up to 33%	up to .83
2. Observe the speed limit	up to 23%	up to .58
3. Timing stop lights	up to 20%	up to .50
4. Avoid engine idling	up to 19%	up to .48
