We’ve had some instances reported of strange activity in the complex so please stay vigilant. We cannot act upon issues unless we have valid proof or a police report to refer to.

Projects list: (in no particular order, may not be complete)

The balcony project is a high priority. As a reminder, the due date for the 2nd assessment payment is April 1, 2024. To make the assessment payment, follow the instructions/guidelines in the previous sent letter. Late fees and interest will apply to past due balances and delinquent accounts on the 1st and 2nd assessments. Property liens will be placed due to outstanding balances, with additional legal expenses incurred by home owner. All funding must be in place to start/finish the project. Owners will be notified as their balcony is scheduled for replacement. **Phase 1 is complete and we are ahead of schedule by about 4 months.**

The waterline replacement is tentatively planned to begin in July. As we get more solidified details we will let the community know. We will be scheduling some planning meetings for the community, especially for residents on the south side of the complex, to discuss impacts and help plan for parking and access.

We will be replanting new trees in the complex to replace some of the trees we have removed due to them dying.

Reserve study is being initiated TY for the community.

We do have a beaver, or two, that are in the pond and have taken out 3 trees so far. We are in the process of trying to live trap them and have them relocated. If you see traps in the pond, please stay clear of the area. Watch your pets as well as we have live traps going at other times to catch raccoons.

We are also looking into getting requalified for FHA loans. There is a cost associated with that, the HOA committee has submitted all the paperwork requested for this to move forward.
