HAPPY WOMEN'S HISTORY MONTH!

WRITTEN BY BRIGITTE SCHWARTZ

Women have and still are facing **challenges** every single day. But we have still made our mark and made our voices heard. However, the incarcerated female community is still not being heard. Help us **empower** all our girls to make a difference in this world.

Here at Take Trips MES, we don't have to go far to see a **Black Woman** making a difference in the lives of incarcerated youth of color. **Hello** to you Barbara our Executive Director.

As we continue to make major progress in the lives of youth of color returning from the incarceration system; we need your help to keep our mentoring services going.
