Max platform height	8 m
Platform capacity	320 kg
Overall width	0.85 m (narrow)
Weight	2208 kg
Power	24V electric

Why they work for a hire fleet

- ✓ **Genie-equivalent spec & footprint** — GS-3246 and GS-2632 class, so they slot straight into an existing fleet.
- ✓ **As-new, very low hours** — 13.8 and 17 recorded hours; manufactured September 2025.
- ✓ **18 months' manufacturer's warranty** remaining on both machines.
- ✓ **Hire-ready** — supplied with a current CE / UKCA Declaration of Conformity.
- ✓ **Capacity advantage on the narrow model** — the SM-2634 lifts 320kg vs the Genie GS-2632's 227kg (~40% more).
- ✓ **24V electric, zero emissions, non-marking tyres** — ideal for indoor fit-out and facilities work.
