

RoHS Compliance Statement

August 7, 2018

The EU RoHS Directive 2002/95/EC, also known as RoHS or Lead-Free, is the Restriction of Hazardous Substances regulation that specifies the maximum levels of lead in various electric and electronic devices. In addition to lead, the RoHS directive also restricts the following hazardous materials to the stated limits:

|                                    |          |
|------------------------------------|----------|
| Lead                               | < 0.1 %  |
| Mercury                            | < 0.1 %  |
| Cadmium                            | < 0.01 % |
| Hexavalent Chromium                | < 0.1 %  |
| Poly Brominated Biphenyls (PBB's)  | < 0.1 %  |
| Poly Brominated Diphenyls (PBDE's) | < 0.1 %  |
| Dibutyl Phthalate (DBP)            | < 0.1 %  |
| Benzylbutyl Phthalate (BBP)        | < 0.1 %  |
| Bis-(2-ethylhexyl Phthalate (DEHP) | < 0.1 %  |
| Diisobutyl phthalate (DIBP)        | < 0.1 %  |

Nationwide Circuits offers printed circuit boards that are compliant to the RoHS directive, and have certification statements/declarations from our material suppliers which state that none of the restricted substances are contained in their raw materials.

Sincerely,

Brett Austin
