

Introducing...

A group of your neighbors have gotten together to form a new organization focused on improving our community helping one neighbor at a time. On January 14, 2026, Neighbors with Hearts, Inc. was officially registered with the State of Florida as a non-profit charitable organization.

Our Mission

Our mission is to deliver timely emergency assistance and essential resources to individuals and families experiencing unexpected hardships, promoting safety, stability and hope during critical moments.

Financial assistance is limited to qualified residents of the Village Green community as detailed in the Neighbors with Hearts, Inc. Bylaws.
