Intentional breath + Consciousness

The benefits of intentional breathing is becoming increasingly well known, but what about consciousness?

Things I wish I'd known and embodied during my fertility journey (and before!)

The body is designed to self-	What we perceive, we	Most of the population sub
heal – it gives us messages	believe – Thought	ventilate – who teaches us
(mind, body, emotions link)	(conscious or not) is creative	to breathe?
90% of our thoughts & experiences are sub/unconscious	You've got to feel it to heal it / every upset is a setup & sharing is caring	ANS : Come out of fight / flight – relaxation techniques
The body remembers our	The effects of trauma on our	Increasing breath =
journey – E.g. ancestry, birth	breath – our breath tells us a	increasing life (cells, lungs,
experience	lot about ourselves	immune system, etc!)
