PRESIDENT'S MESSAGE

By Harvey Gerwig

The Legislature is now closed for this year so we can concentrate on important issues, other than fighting against ridiculous bills that seek to take away our Constitutional Rights as honest, law abiding, gun owning citizens.

You have probably heard about the Bump Stock bill known as **SB2046**, which was promoted heavily by Senator Karl Rhodes. This bill sought to ban Bump Stocks, crank triggers, multi-burst triggers, AND any trigger modification, alteration, or replacement on a semi-auto firearm. This last provision would have made felons out of thousands of legal gun owners in Hawaii for simply installing a better trigger in their semi-auto firearm. We solicited and received many hundreds of testimonies from all of you in OPPOSITION to this bill, but Senator Rhodes just kept pushing it through the system.

We took a position early on in the legislative session that banning bump stocks and crank triggers were not the issue we wanted to stand our ground on, and that those were probably going to be banned on the Federal side anyway. Our issue was the overreaching, unenforceable, verbiage about trigger modifications that would impact so many law abiding residents of Hawaii. We owe a great big thank you to Representative Ryan Yamane and Representative Scott Nishimoto for accepting our "revised language" and placing it in the House Companion Bill (**HB1908**) and then standing strong against the pressure being applied by Senator Rhodes to keep the ridiculous provisions in his bill. Because of their strong stance the bill was gutted at the last hour and our language from **HB1908** substituted for the original language. The net result is that bump stocks, crank triggers, and multi-burst triggers will be banned, if the Governor signs the bill, BUT all of us who improve our rifles with better quality triggers are not going to be facing felony charges.

Please take a minute to go on the web and drop a thank you note to both Representatives for their brave efforts to support us and the Constitution of the United States--Representative Yamane, rep Yamane@capitol.hawaii.gov and Representative Nishimoto, rep nishimoto@capitol.hawaii.gov.

Another bad bill that made its way through the Legislature this year is **SB2436**, which initially would have shortened the time for someone who has been deemed disqualified for firearm

possession from 30 days to 24 hours. After lots of meetings with our Legislators they agreed to increase the time to 7 days, and that is how it ended up being approved by both houses. There are hundreds of reasons why someone would be disqualified; such as, a TRO from a disgruntled spouse, a significant other, a neighbor that is mad at you about your mango tree dropping leaves in his yard; or a negative report from a medical provider, such as Kaiser, that refuses to make any assessments as to the fitness of a patient to possess firearms, and that refusal to provide details results in the person becoming disqualified until proven otherwise by an outside doctor.

Once HPD sends the disqualified person the letter to dispose of their guns they now have only seven days to complete the task or the SWAT TEAM will be sent to their home to retrieve the firearms. So, what are their choices for disposing of the firearms: (1) Turn them in to HPD until they can clear the issues that disqualified them. (2) Sell them to an FFL Dealer who can take possession of them immediately. (3) Sell them to a friend or relative. NO, WAIT!! For long guns, the person taking possession of the guns would already have to possess an active long gun permit. If they don't, then there is a two-week waiting period for them to get the permit, and by that time the guns would have to have been turned in. In the case of handguns, each handgun has to have a separate permit to acquire and that takes two weeks after the application is submitted to HPD. And, if the purchaser hasn't already taken the required Handgun Safety Class, that could take another several weeks to complete and get the affidavit from the NRA Instructor that gave the class. So, for handguns it is impossible to transfer them to a friend or relative within the time limit, unless they are an FFL Dealer. All the Legislators were appraised of these facts in our testimony, both written and verbal, but to no avail. No one could tell us why this bill was so important that they would push it through against strong opposition. Once again, you can thank our anti-gun Senator Karl Rhodes for this mess of a Bill that now sits on the Governor's desk awaiting signature. I am currently writing a letter to the Governor asking him to VETO this jewel to protect his constituents from undue confiscation without compensation.

CONCEALED CARRY 2018: The Concealed Carry bills this year submitted by Senator Mike Gabbard and Representative Sam Kong were not allowed to have a single hearing in either the House or the Senate, which means that leadership of the Hawaii

"Let's add Hawaii to the list of CCW holders who can help prevent mass shootings and enhance personal safety."

Legislature does not regard your Constitutional rights as important and that your safety and that of your family is not paramount in their minds. At least thirty eight (38) states have concealed carry and there are extremely few issues each year with CCW permit holders. Why is it that Hawaii does not trust its most trustworthy citizens to protect themselves? It is clear to me that the only way we will be able to recapture our rights is through legal action, which is exactly what we intend to do.

A new report from the FBI showed that at least four active shooter incidents in 2016 and 2017 were stopped by individuals with valid firearm permits. There are well over (3,000,000) active concealed carry card holders in the U.S. The CDC issued a report that in 1998 there were over (2,000,000) defensive gun uses in the United States. Let's add Hawaii to the list of CCW holders who can help prevent mass shootings and enhance personal safety.

Come out and join your fellow members at the SHOOTING SPORTS FAIR on Father's Day weekend, June 16, and 17, 2018. We invite the public to come out and shoot our guns and ammo along with trained and certified NRA Instructors and Range Safety Officers. Our event works like a carnival, you buy scrips and then go to the different venues and select the guns you would like to shoot. It is advisable to bring your own shooting glasses and hearing protection, but we also have that for sale at the event at very reasonable rates. Hope to see you there.

Aloha and see you at the range,
Harvey

LONG DISTANCE ASSISTANCE

Tiana on the Firing Line

By Richard Hoeflinger
 Founding Past President of On Target, Inc.
 Re-printed from Traditions Magazine, NRA 1st Quarter, 2018 Issue

The state of Hawaii is composed of eight major islands. The Island of Hawaii, the ‘Big Island,’ is by far the largest in terms of land size—it could contain the other seven islands two times over. However, the mostly rural island is home to a mere 13 percent of the state’s population. That’s just fine with those who live there. But, like everything else in life, there are some tradeoffs involved.

As a person who has resided in five states, I can tell you that Hawaii’s year round climate is hard to beat. Plus, Hawaii Island residents are among the friendliest people on earth. And if you’re a hunter like me, there are 13 species of game birds and four mammals to pursue on the Big Island. That’s the good stuff. “What tradeoffs?” you might ask.

Hawaii Island residents possess a quarter million rifles and pistols—1.3 guns for every man, woman, and child who live there. With that knowledge, now think about this next fact from a mainland perspective: there is no legal and publically accessible place anywhere on the Island to shoot those firearms. This was the impetus for On Target, Inc., a Hawaii Island-based 501(c)(3) nonprofit incorporated in 2010 whose purpose is reflected in its motto: “Supporting safe shooting sports in Hawaii.”

On Target, Inc. pursues two fundamental goals: the development of a comprehensive public shooting facility and the delivery of education in safe and responsible firearms use. While some progress has been made in range development, a safe place to shoot has yet to become an Island reality. But thanks to NRA Foundation grant

In a collaborative program with the County of Hawaii, On Target volunteer instructors have trained and certified nearly 200 residents in Basic Shotgun Shooting, in recreational Trap and Skeet Shooting, and as Range Safety Officers.

SCTP Coach Training Class

funding, On Target, Inc., has a staff well trained in principles of range development and operation, and it continues to provide ongoing advice and technical services to state and county organizations engaged in that effort.

Hawaii Island does have a county-operated trap and skeet range, and two related programs have also benefitted from NRA Foundation grants. On Target’s NRA Certified Instructors and Coaches were trained on the Island to provide Basic Shotgun Shooting Instruction and to support development of a Hawaii-based Scholastic Clays Target Program (SCTP).

In a collaborative program with the County of Hawaii, On Target volunteer instructors have trained and certified nearly 200 residents in Basic Shotgun Shooting, in recreational Trap and Skeet Shooting, and as Range Safety Officers. That group of students included all types of residents ranging in age from 10 to 79 years. One third were youths, and one fourth were seniors.

A third of the students participating in safe and responsible gun handling instruction were female. Half of the class participants were parents taking part alongside their children.

The NRA Coach training and firearms also funded by NRA Foundation grants has enabled On Target, Inc., to establish and field the first-ever Hawaii SCTP team. And efforts to build second and third teams are already underway. Hawaii is a latecomer to the Scholastic Clay Target Program—which nationally involves 15,000 youngsters in fifth grade through college—but with NRA Foundation assistance, we’re off to a good start.

None of these achievements would have been possible without the more than \$30,000 in financial support provided by The NRA Foundation, whose long arms reached out 4,700 miles from the mainland to this little dot in the middle of the Pacific. Those of us who reside in paradise are grateful for the help.

LETTER FROM THE PRESIDENT

Dear Members:

As time marches on we see the cost of everything going up at an alarming rate, especially here in Hawaii. This message today is a request for you to help us control our costs so we may spend our funds on the things that matter most to our valued members, such as lobbying the Legislature for good gun laws and putting on fun events for our members. We have been mailing out newsletters for decades now and are gradually converting our mailing list to an email list, which saves us thousands of dollars a year in printing and mailing costs. Unfortunately, there are still a large number of members who are still on the mailing side of the list.

We have removed the mailed option from all current sale of memberships and only offer the email option at this point. If you have a mailed newsletter membership please consider converting to an email type. You can do this simply by emailing your Full Name and email address to HRAmemberships@yahoo.com with the subject line: Please convert my membership to email.

Thank you in advance for you co-operation in helping us to save money for the cause.

Harvey Gerwig, President

Lunch Wagon onsite both days

MAY 6, 2018 | 20 GA. TOURNAMENT

Koko Head Skeet Club

By Laughlin Tanaka

John Smith - Winner Class A
When the dust settled, "old timer" John Smith (Class A) had the high score of the day, scoring a 96. Outstanding shooting for a person who has been away from the game for several years and only recently has been coming out regularly... beware the gauntlet has been thrown down.

As I drove to Koko Head Shooting Complex to begin our shooting day at the crater, I was awestruck with the beauty of the morning. With the sun shining in the early morning and very little wind to speak of, it was a postcard kind of morning in Hawaii. A thought suddenly jumped into my head and I thought about all the natural disasters that have befallen Hawaii in the last couple of months--the flooding on Kauai and in Waimanalo, and more recently, the lava vents and destruction in the Pahoia area. They seem so unreal and it gave me pause, reminding me how thankful we should be for our blessings and to give a moment of thoughtful prayer and consideration for our fellow islanders going through some tough times. Give a lending hand where possible--be it physical assistance to a neighbor or friend, monetary or product donations to relief efforts. I know anything will be welcome and appreciated by the residents so impacted.

With that said, we started our sunny day with Earle Char, president of Koko Head Skeet Club, welcoming 19 shooters for this month's 20 ga. tournament. It was 100 targets and best score won the day. Earle was assisted by Koren Wakatsuki who did the scores along with Alden Almeida who tabulated and put scores on the board.

The first squad was ready to roll by 8:30 am and it was a morning that we have not seen in long time...sunshine galore and hope burned in the competitors' hearts, with thoughts of, "did I practice long and hard enough to show up today!!" Off we went, and targets started busting and hope sprang eternal. Within an hour after starting, the famous "Koko Head Winds" peeked into our game. Some targets were extra challenging and you had to be on your game to make the targets break.

We had some familiar faces show up this day and some faces that have not been here for awhile. Shooting performances have improved over the last couple of months. We were also graced with some new shooters trying to establish their class. Any shooter that has not shot tournament targets (minimum of 200 tournament targets) is classified as N/C and all others will be in their assigned classes. Remember, classes are very much like golf handicaps. Each shooter is placed in his respective class according to his last two hundred targets, and each tournament, the person who wins his class twice will be moved up to the next higher class. It is a game where the handicap keeps like skilled people in the same class and levels the playing field.

Other fine performances were turned in by Chad Sims (Class AA) with a 95, Tai Chong (Class B) with a 94, Mike Cullen (Class E) scoring a 92, and Alden Almeida (Class D) with a 91 rounding off our top shooters of the day. Note: Look at the scoreboard below for the other shooters scores respectively by class.

Also worth mentioning are the people who have been elevated to Class E after having shot 200 tournament targets, including William Roach and Jonathan Smith (John Smith's son). By the way, you didn't hear it from me but Jonathan sometimes kicks dad's butt in practice but the "old man" says that tournament pressure is where he comes out on top... beware John, your son is coming and fast!

The after tournament festivities are always welcome and we had fun talking over the great shooting successes during the day and some of the targets that just got away. There was fellowship and good food to round off a great day. The weather held all day and it was just so nice to finally have a full day of sun and fun, with the shooting community having a great time this day.

We would like to thank all the people who helped pulling targets and assisted in getting all the shooting scored and on the board so all could rejoice or weep--including Mike Yoshida, Tai Chong, and Alden Almeida. Thanks to Keith Yugawa for helping to cook the hotdogs and pork sausage...always hits the spot at the end of the shooting day. A special thanks goes out to Eddie Nakata who took all the pictures that grace this article and for making a historical record for the club. If I have left out anyone, please forgive my absent mindedness but your help is greatly appreciated.

With that said shooters, have a safe weekend, and please don't forget a prayer for the folks on Kauai, Waimanalo and the Volcano victims. As Earle Char says, "head on the gun, eye on the target and bust'em."

SCORE BOARD - 20 GA. TOURNAMENT

CLASS	NAME	SCORE	TOTAL	
AA	Chad Sims	24 23 25 23	95	CLASS
