True North
That is our foundation
And through innovation
we learn

True North
That will be our setting
Where we all are heading
but we can turn

We discover and explore
We are stars shining bright!
We're excited to know more
We are the light!

We are captains of our future
and adventure is our fuel
We're the Compass School

True North
That is our foundation
And through innovation
we learn

True North
That will be our setting
Where we all are heading
but we can turn

The Compass School Song (of Dallas)

We are Family, Community,
We're stars shining bright!
We're excited to know more
We are the light!

We are captains of our future
and adventure is our fuel
We're the Compass School
We're the Compass School
